## CONTEST RULES

The “CONTEST RULES” are very simple,

This is how the contest works. People come to our website [www.portableliftchairsllc.com](http://www.portableliftchairsllc.com) and make a purchase on an item or multiple items and for every **\$200.00 US Dollars** spent at that time that person is given a slot in our contest to be placed in.

**Example:** A person spending the **first \$200.00** gets entered in our contest as the **1<sup>st</sup>** buyer and **is placed in slot number (1)**, If the same person was to spend over \$400.00 then they would be placed in the next additional slot which would be in slot number (2), then the next person who spends over \$200.00 dollars would be placed in slot number (3), and if that person spent over and additional or multiple \$200.00 they would be placed in the next available slot(s) etc; until the next person making a purchase of \$200.00 dollars or more is our lucky purchaser and **is placed in slot number (300)** then the next person purchasing \$200.00 or more would be placed in the next available slot(s) until the next slot number reaches slot number and **is placed in slot number (600)** then that contest would end.

**WINNERS:** Winners are determined by who lands in slot 1,300, and 600. The person in slot **(1)** would win \$5,000.00 U.S. Dollars, The person in slot number **(300)** would win \$5,000.00 U.S. Dollars, and the last person in the last slot **(600)** would get \$5,000.00 U.S. Dollars.

Then the next contest would repeat the process, until that contest was completed or it was decided that the contest is about to end and the last contest would have an expiration date informing people that the last contest ends by a date determined, but until that happens the contest process would continue to continue.

At this time the contest is active and it does not have an end date.

Winners are responsible for all taxes to be paid on their winnings.
